FL COMM PM	FL COMMERCIAL PEST MGMT	\$125.00
Good afternoon. I spoke with Katya upon arrival. I started by brushing around the upper exterior of the building including windows and doors with a spider repellent. I then went to the playground and brushed under the slides and platforms removing spider webs and wasp nests. There were also two wasp nests removed from the main building. I then used a liquid residual product around the foundation of the building, entryways, and windows. Lastly I used a granule treatment in all of the ornamental beds, around the outside of the pool area, around the basketball court, around and within the playground, around and within the dog park, and around the mailboxes. Please allow 7-14 days for the best results. Feel free to call with any questions or concerns. Thank you for choosing McCall pest and wildlife. Hope you have a great day!

**Added By:** Michael Clausen

**Log Notes:**

I was sent out to perform our monthly wet check. Upon my wet check. I found a couple issues. The biggest one being a drip in front of the amenity center building from where the crew trim the ? grassy plants.

Also zone nine, which is half of the dog park is not coming on by the clock.

There is also quite a bit of zones that are on battery timers.
